info@self-leveling.us

Concentrated gypsum underlayment

- Fast setting and drying
- Provides a smooth and self-leveled surface for all floor finishes
- Improves significantly the fire resistance and noise control
- Can be applied over any subfloor
- Can be used in various mix designs for improved compressive strength
- Installation depths: from 3/4" to 3"
- UL tested and classified

Features and benefits

- Easy to apply with excellent fluidity
- Walkable within 4 to 6 hours
- Ideal for projects such as Multi-family, light commercial, retail, hotels, motels, offices, apartments, and more
- To be used under SPS, wood, laminated, carpet, ceramic tiles, LVT, vinyl flooring, and other finishes
